

## **Long Range Planning Meeting Minutes**

### **6/12/03**

In attendance: Pat Dolan, Sandie Stage, Robin Brown, Jackie Berkebile, Luanne Christensen

Took a look at the summary from the community surveys. We want to make goals for the new year:

1. Discussion that our community supports, from the survey data, the completion of the entire pathway system. Robin suggests the pathway from Whisper Ridge to Reston be continued to Drakes and Willett, to enable access to pool area. Pat suggests we meet with Steve Beuchner to discuss pathways. I will call and see if we can meet wherever the maps are for the pathways system. I will call and notify committee if this can be done for the next LRP meeting. (7/9/03)
2. Discussion about the desire for the elementary school. We should be speaking with new superintendent and make this an issue for her. Discuss our needs in Radisson and the population of children here.
3. With the eventual river park happening, it was suggested by Sandie that we offer boating safety classes, sailing classes. We need to have canoes, kayaks, life jackets available to community.
4. Get the strategic planners summaries from Vern Mize, Ed Alenciwicz, and Stan Solo to come to a meeting about incorporating their goals with ours.
5. Pool: we need another pool or enlarge the one we have.
6. Do not lose sight of the Drakes Landing issue. Is there any way to make opening up the end of Drakes from River Road a dead issue? How about buying the land and put something on it that would preclude ever opening up that end?

Next meeting 7/9, time TBA

Luanne Christensen
